Northwind Benefits Guide

This guide summarises employee benefits at Northwind Robotics, a fictional company used as a test corpus.

Health Insurance

Northwind pays 100% of the health insurance premium for employees and 75% for dependants. Coverage starts on the first day of employment. Employees choose between the Standard plan and the Plus plan during onboarding and during the open enrolment window every November.

Dental and Vision

Dental cover includes two check-ups per year. Vision cover reimburses up to 300 USD for glasses or contact lenses every two years.

Retirement

Northwind matches retirement contributions up to 5% of base salary. The match vests immediately. Employees can change their contribution rate once per month.

Learning and Development

Each employee has an annual learning budget of 1,500 USD for courses, conferences, books and certifications. Unused learning budget does not roll over to the next year. Employees may also take up to 3 paid learning days per year to attend training.

Wellbeing

A monthly wellness stipend of 60 USD can be spent on gym memberships, fitness classes or therapy apps. Employees and their families can use the confidential Employee Assistance Programme for free counselling sessions.

Home Office and Commuting

New employees receive a one-time home-office stipend of 750 USD for a desk, chair or monitor. Office-based employees receive a commuter allowance of 100 USD per month for public transport.

Life and Disability Insurance

Life insurance pays three times annual base salary. Long-term disability insurance covers 60% of base salary after 90 days of disability.

Questions

Questions about benefits go to the People Operations team through the #ask-people channel.
